-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

All remaining rejections and/or objections follow.

Claim 20 contains the word "pentaplock (sic)". Correction is required.

Claim 23 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention.

Claim 23 depends from itself and is therefore unclear.

Claim 23 is objected to under 37 CFR 1.75(c), as being of ~~improper dependent form for failing to further limit the subject~~ matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 23 depends from itself and therefore does not further limit a preceding claim.

The rejection in the previous Office action under 35 U.S.C. § 103 relying upon Court et al. (FR 2772038) has been withdrawn since it is the position of the Examiner that no prima facie case of obviousness can be made over this patent against the instant claims.

Applicants are reminded that the Draftsman's objection to the drawing as well as the drawing description and PTO-948 is included in this Office action. It is noted that applicants have

Art Unit 1711

incorrectly labeled their Figures not only on the Figures themselves as set out in item "6" of the PTO-948 but also in the drawing description as well as at least the bottom of page 13 of their specification. Correction is required.

It is noted that page 14 line 12 of the instant specification recites "S-EB-Ss". It is assumed that the lower case "s" is intended to indicate plural SEBS molecules. While it is not necessary to indicate plural molecules in that those skilled in the art would assume that plural molecules are present in the nodules referred to, this is not unclear.

This Office action is not being made FINAL.
